

Overview

Amorycare Homecare’s mission is to deliver supportive home care services with the highest standards of excellence through compassion, respect, and education. Our home care services include a wide variety of supportive care provided in the home or residence of your loved one.

Our core services include: Private Duty Nursing and Home Health Aides

Assessment

The first step in creating an Amorycare care plan is our complimentary intake assessment. One of our Nurse Intake Coordinators will meet with each perspective client and their loved ones to conduct an assessment of medical needs, as well as a detailed discussion of the client’s psycho-social needs to begin to construct a comprehensive and individualized plan for care moving forward.

Matchmaking & Care Plan

Following the assessment, our Nurse Intake Coordinator will work closely with one of our Care Managers to select a team of home health aides or nurses who best meet the client’s clinical needs and caregiving preferences. We individually match each of our caregivers to our clients based on their clinical skills and caregiving styles, and continue to work closely with our client to ensure continuity and comfort within their care team.

Clinical Collaboration Oversight

All clients are assigned a dedicated care management team to coordinate and oversee all aspects of care. Care Managers will work closely with clients and their loved ones to coordinate the schedule, provide additional support through referrals to our expert partner services, and enhance the social and cognitive engagement of our clients through individualized care plans for caregivers and nurses to follow.

Concierge Home Health Aides

Amorycare Concierge is our premiere level of home care, offering the highest degree of personalized attention and services tailored for the needs of each client. To ensure our clients and their families receive the finest care, we have an extremely rigorous hiring process requiring a personality test, two intensive interviews, a half-day orientation, and a final interview with a member of our executive team. Only a select few make it through this process. Our employees receive the most competitive compensation, including medical benefits and a 401k plan, as well as ongoing support, including extensive training that is unmatched in the industry. Our training program goes beyond standard Continuing Education classes and offers 4x more training than the industry average.

Areas of Support:

- Bathing & Dressing assistance
- Personal Hygiene Care
- Meal Prep & Feeding assistance
- Medication Reminders
- Enhanced Social and Cognitive Engagement
- LTC Policy Review

Elite Nursing

With Amorycare Nursing, you receive all the services and support offered through Amorycare Concierge, with the additional benefit of a professional nursing team. We selectively hire only the most exceptional nursing professionals, with specialized knowledge and multiple years of clinical experience from highly regarded medical centers.

Our nurses collaborate with physicians and other healthcare specialists, consistently monitoring changes in a patient’s condition and significantly improving patient outcomes through early intervention.
